

IS3022si

Fitting Instruction

Door Bottom or Meeting Stile seal with Silicone Rubber fins

Length:

DESCRIPTION OF CONTENTS

- Aluminium carrier (1)
- Pre-slotted holes (2)
- Silicone gaskets (3)
- Bag of screws
- Fitting instructions

TOOLS REQUIRED FOR INSTALLATION

- Tape measure
- Saw (power or hand)
- Screw driver
- Drill (power or hand)
- Knife
- Pencil or Marker

INSTALLATION DETAIL

STEP 1

If installed, remove door from its hinge, lay the door on its edge and firmly restrain.

STEP 2

Measure door height/width and cut the seal to suit, using a sharp knife for the silicone gasket and a saw (power or hand) for the aluminum section.

STEP 3

Screw fix the aluminum section onto the door stile/bottom using the screws supplied. (fixing holes are pre-slotted)

STEP 4

Ends of the aluminum channel can be centre punched to prevent gasket moving in the carrier.

STEP 5

Re-hang the door.

We recommend the IS3022si be used together with a Lorient Integrity™ 4000 series threshold plate.

IMPORTANT – Ensure that the installation of this product does not impede the opening or closing of the door. It is recommended to check the adjustment of the door seal periodically to ensure the door assembly to which it is fitted, closes and latches properly.

NOTE

Recommendations as to methods for use of materials and construction details are based on the experience and knowledge of Lorient and are given in good faith as a general guide and service to designers, contractors and manufacturers.

Lorient reserves the right to make alterations or delete any installation detail without prior notice.
