

PRODUCT CODE

IS9010

DESCRIPTION

A drip guard to channel water away from the head of doors, exposed to the weather

APPLICATION

The anodised aluminium IS9010 is mechanically fixed above outward opening doors expanding the full width of the door.

KEY FEATURES

- Anodised aesthetic finish.
- Seal mechanically fixed without self-adhesive.
- Flexible PVC cover strip to hide the screw fixings.
- Pre-drilled and slotted fixing holes provide for adjustable installation.
- Easily installed without removing the door.

MATERIALS

An extruded, clear anodised aluminium profile combined with a flexible PVC cover strip.

SIZES

Standard Lengths 1000mm, 2250mm
Also available in 250mm increments: 1000mm to 3000mm
Seals can be cut on-site for exact dimensions.

FINISH

- Silver anodised aluminium with grey cover strip.

FIXING

The seal is mechanically fixed to the head of external, outward opening doors. Self-drilling and timber fixing screws are supplied. Fixing holes are pre-drilled and slotted to allow the seals to be adjusted and positioned accurately.

SPECIFICATIONS

Lorient IS9010 fitted to the head of the door frame.
